**Try the cleaning ON DEMAND experience:  
cleaning whenever and wherever you want**

**Try the cleaning ON DEMAND experience:  
cleaning whenever and wherever you want**

#### **ALWAYS CHARGED AND READY TO USE**

Thanks to the lithium ion battery it is ideal to perform many, short and targeted cleaning operations during the same day.

#### **ALWAYS AT YOUR SIDE**

Small and lightweight, you can take it wherever you need it.

#### **CLEANS EVERYWHERE**

Thanks to its compact dimensions there is no space too small to be cleaned.

#### **PLUS SAFER CLEANING WITH VISPA XS**

- Scrubs and dries in a single pass.
- The floor is dry and safe to walk on in just a few seconds, preventing the risk of dangerous slips.
- Ideal for fast food restaurants, restaurants in general, self service diners or bars, even for cleaning during business hours.

#### **LITHIUM ION TECHNOLOGY BATTERY**

You can quickly recharge it to use it during the same day as often as you wish

#### **ALWAYS READY TO USE**

No self-discharge, Vispa XS is always ready when you need it.

No memory effect, you can recharge the battery whenever you want

#### **FAST CHARGE**

You can use Vispa XS several times in a single day

#### **MAXIMUM POWER**

Constant power throughout the entire cleaning operation

#### **LOW RUNNING AND MAINTENANCE COSTS**

High discharge/charge cycle lifespan

#### **HANDY BATTERY CHARGER**

Lets you recharge anywhere, without wasting time

Vispa XS

## PARABOLIC SQUEEGEE

Perfect scrubbing and drying, in any direction

The innovative rotary head is equipped with a parabolic squeegee which continuously follows the direction of the machine, for perfect scrubbing and drying results in any direction and even in the most inaccessible corners.

SLALOM CLEANING

FORWARD AND BACKWARD CLEANING

**The brush is offset laterally relative to the machine housing, for perfect cleaning along walls and making sure that the entire floor surface in a room is hygienically washed**

Vispa XS is perfect for restaurant businesses, cleaning effectively and effortlessly under tables and chairs because it washes and dries also when moving backwards.

## It increases floor hygiene

Vispa XS is quick to disassemble, so even an inexperienced operator can clean it in very little time

The tanks are detached effortlessly and with no tools. Refilling with clean water and cleaning the dirty water tank take almost no time at all, as does cleaning the solution filter, the squeegee hose and the vacuum manifold.

Simplified maintenance at the end of the shift ensures that maintenance is performed regularly, as it only takes a few minutes.

Correct daily maintenance prevents the formation of mould and unpleasant odours inside the scrubbing machine.

Designed to adapt to the operator for extraordinary comfort and safety

RECOVERY TANK

DETERGENT SOLUTION TANK

The squeegee rubber blade ensures outstanding drying performance even when cleaning oily liquids, which may commonly be found on the floors of a professional kitchen or restaurant

The frame and brush head are made of aluminium with an anti-corrosion treatment

## Sturdy and lightweight

With materials such as aluminium for the base and chassis, the Vispa XS is both sturdy and lightweight, putting less strain on the operator during use and transport, even when carrying up and down stairs in buildings with no lifts. Once folded, the machine can be carried easily with the handle on the control bar. Otherwise, a pair of large wheels let you pull the machine along like a trolley.

**When not in use, the machine's compact dimensions mean that it can be stored anywhere, even in the smallest closet**

The steering wheel is covered in soft-touch, anti-slip material for a sure, comfortable grip.

The controls on the steering wheel are simple and intuitive, and are easy to use for an inexperienced operator, ensuring total control over the machine and the cleaning process.

Cleaning settings are already pre-configured when using the automatic scrubbing function.

**Simply press the AUTO button to start.**

**The steering wheel height and tilt are adjustable to suit the stature of the operator and reduce back fatigue.**

## Vispa XS

### Respect for man and the environment

#### ECOMODE SYSTEM

Ideal for maintenance cleaning,  
as it ensures perfect hygiene with no wastage!

-  Saves water
-  Reduces the use of the chemical product
-  Reduces energy consumption
-  Reduces noise levels

A single button for optimising detergent solution usage and energy consumption, increasing working autonomy and reducing noise levels, for cleaning at any time of day without disturbing the people around.

Lithium ion technology battery

Reduces the use of the chemical product

Reduces noise levels

Reduces energy consumption

Preserves water

Increases safety

Reduces packaging volumes and therefore the number of transportation means required

Uses recyclable materials

B - Battery powered machine with voltage value

Machine for commercial use

The machines are manufactured in compliance with the directives 2006/42/CE, 2006/95/CE, 2004/108/CE and with the standards IEC 60335-1 and IEC 60335-2-72.

The steel parts are subject to treatment which guarantees a long life and makes the parts oxidation-proof.
