

COMAC 15/30/60/80/100

Versatile and functional commercial vacuum cleaners of 13, 25, 43, 80 and 110 litres

CA15.
Especially suitable for environments where low-noise levels, air quality and user-friendliness are absolutely necessary: hotels, hospitals, retirement homes.

CA15 is a single-stage vacuum cleaner available in three versions: CA15 ECO, CA15 PLUS and CA15 SILENZIO. It features technical innovations ensuring

effective vacuum cleaning and returns the environment clean air.

CA15 ECO

CA15 PLUS

CA15 SILENZIO

CA15 ECO

Practical, robust vacuum cleaner.
 Extremely compact and quiet, 59 dB (A), it's the ideal tool for cleaning operations, where ease-of-use and quietness are essential.

Sturdy and with a powerful motor, it allows you to work continuously over time, without interruptions.

Exhaust air is filtered in order to retain any possible residue from the motor brushes

Inlet air is filtered by the double-layer filter bag and the sponge filter. A cartridge filter is also available as an optional accessory

Easy-to-use switch and optional storage for accessories

CA80/100. Functional front attachment

CA80/100 can be fitted with a front squeegee that is controlled by means of a pedal on the rear of the machine so that drying operations are made easier

Easily removable fabric filter for dust suction

Easily removable sponge wet suction filter

Thanks to the good balance between the handle and the rear wheels, the suction unit can be tilted right down to the ground to make it easier to empty the tank.

The tank has a built-in handle to make it easier to empty.

The practical hook on the rear of the suction unit makes it easier to empty the tank when direct discharge of dirty water into a drain well is not possible.

Accessories are gathered inside a built-in net pouch to always have them within reach

CA30/60
Suitable for vacuum cleaning of small size areas such as offices, laboratories and small workshops

CA30/60 are professional vacuum cleaners with a very powerful single motor. User-friendly and manoeuvrable, they now have a new design which includes a built-in accessory holder. In this way any accessory which may be required for accurate vacuum cleaning is always within reach and kept in order.

CA80/100.
Suitable for vacuum cleaning of medium to large-size areas

CA80/100 are the largest vacuum cleaners in the commercial range. They have a very spacious tank and, despite their size, are extremely practical and user-friendly. Thanks to an additional front attachment, also wet vacuum cleaning is possible and excellent surface drying is ensured.

Simple coupling system for the suction hose

Easily removable fabric filter for dust suction

Easily removable sponge filter for wet vacuum cleaning

Large rubberised non-marking wheels: rear fixed wheels and front pivoting castors for better stability

Thanks to the ergonomically designed handle these vacuum cleaners are easy to transport in any operating condition

CA15 PLUS/CA15 SILENZIO

CA15 PLUS: for powerful suction.

Powerful (290 mBar), quiet, 61 dB (A), complete in every detail. It includes a superb filtering system. It has a system that enables the power cable to be changed quickly in the event of damage.

CA15 SILENZIO: quiet and versatile.

Vacuum cleaner with excellent performance levels; in addition to the functionality of Plus model it has a very low noise level, **53 dB (A)** (adjusted to 500 W power) with a low consumption but powerful motor; CA15 Silenzio can be gentle but efficient when discretion and functionality are requested.

Thanks to the technical innovations, it's the only one of its kind on the market, and the series filtering system feeds clean air back into the environment.

CA15 PLUS - CA15 SILENZIO
Easy maintenance.
The mains cable can be easily replaced even by non-professional personnel simply turning the cable-blocking knob.

CA15 PLUS - CA15 SILENZIO 100% pure air.
The exhaust air is to prevent motor impurities reaching the external environment. Using an HEPA filter (optional), the vacuum cleaner can be certified for "clean room"

CA15 PLUS - CA15 SILENZIO

- A rear removable rack, designed for tools storage; you'll have everything handy, but above all you won't lose anything.
- A handy additional socket for powering an electric brush (optional), for precise cleaning (rugs, carpets, etc.)
- The indicator light near the ON/OFF switch shows when the bag is full and needs to be replaced.
- A handy foot switch command speeds up the ON/OFF operations.

CA15 PLUS - CA15 SILENZIO
The cartridge filter not only improves the filtering system but also prevents dirt reaching the motor if the bag breaks.

CA15 SILENZIO
Use the potentiometer knob for power adjustment

CA15 SILENZIO
The telescopic extension, the brush with wheels, and a handy tool for cleaning wooden floors, these are the high-quality accessories of this small vacuum cleaner.
