

# CM12/15/18 Upright Vacuums

CM12

CM15

CM18

**UPRIGHT CARPET CLEANER RANGE**

The CM series is a line of professional upright vacuum cleaners, with working widths ranging from 30 to 45 cm, and 1 or 2 motors.

With their exclusive design, these cleaners offer technological solutions that improve efficiency and comfort during use. Due to their low centre of gravity, they have excellent stability, are more manoeuvrable

and are less tiring to use.

The brush height can be adjusted to suit the surface to be cleaned by means of a practical selector knob. The particular distribution ("cusp-shaped") of the bristles on the brush improves the efficiency of dirt pick-up; furthermore, the brush can be replaced without any need to use tools.

## ACCESSORIES

**CM12 series accessories:** telescopic extension, flat dust nozzle, compact hose and extra dust bag

**CM15 and CM18 series accessories:** handle on hose, telescopic extension, flat dust nozzle, extra dust bag

Brush maintenance without tools.  
Cusp shaped brush to carry soil towards the area where suction is greatest.  
Aluminium bearing support

Automatic cut off if brush is clogged.  
Uncoupling pedal with safety clutch

Full dust bag warning light.  
5-stage filtering: 2 in the bag, 1 on the motor and 2 supplementary stages.  
Possibility of using a HEPA filter

Extendible vacuum hose with telescopic tube
